Proposal review criteria

Proposals are reviewed anonymously by scholars who work in intercultural education, study abroad, Latin American & Caribbean studies, non-governmental and advocacy organizations. Please only include author names, affiliations, or links to identifying websites in the presenter bio and not in the proposal title, abstract, or outline of this form. Proposal criteria are below. *Graduate and undergraduate students may indicate this status in the proposal abstract or outline to have it considered in the review.*

Please make sure your proposal:

- Aligns with conference theme, sub-themes and/or mission of AAPLAC
- Demonstrates an outcome or clear message or resource of use to educators, cultural workers, students, policy makers, advocacy organizations, or NGOs
- Demonstrates an analytical / critical element or provides a networking-style introduction to particular challenges in one's program or work. Presentations should **not** be simply program promotion.
- Clearly structured and composed for a listening audience in an appropriate manner (film, art, presentation, course project).

Conference Dates: February 16-19, 2022

Conference Location: Tucson, Arizona, USA

Proposal Form

Indicate Your Preferred Format

Format A. Long form. Presentations may be 15-20 minutes in length as part of a larger session with a linked theme, audience questions and larger discussion held until the end. A 15+ minute Q & A period follows each session, or as time allows.

Format B. Short form. Presentations will be allowed 10 minutes for both the presentation and the questions combined. We suggest 7-8 minute presentations followed by 2-3 minutes for audience questions before we move directly to the next presentation. Audience and presenters can engage in fuller conversations immediately after during informal networking and discussion gatherings held for this purpose.

Format C. Flexible. I prefer the long form (Format A) but would be happy to reduce my presentation to Format B if necessary.
